

Document Analysis Report

Summary:

* The text is a follow-up email regarding the renewal of a Kronos PREPROD environment certificate. * The sender, Kavitha Krishnan, thanks the recipient, Mohammed Aashiq, for their confirmation and informs them that they will proceed with closing the change.

The email is requesting the renewal of the Kronos PREPROD environment certificate, which is expiring soon. The sender has provided the necessary details and requested the recipient to proceed with the renewal process.

The email is informing the team that the verification for the URLs `kronosv81cloudppaz.woolworths.com.au` and `kronosv81cloudppapi.woolworths.com.au` has been completed and the certificates have been renewed.

The text confirms that certificates have been renewed for `kronosv81cloudppaz.woolworths.com.au`, a website domain owned by Woolworths. The renewal was done as agreed.

The email is regarding the renewal of the Kronos PREPROD environment certificate. The sender is requesting the certificate renewal from Mohammed, and the email is addressed to several teams and individuals, including WFM-KCD, Chandran, Gokulnath - Dell Team, DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHC.

The email is requesting the renewal of the Kronos PREPROD environment certificate. The sender is following up on the request that was previously sent to the recipient, and they are providing an updated timeline for the renewal process.

* The email is a request for certificate renewal for the Kronos pre-production environment. * The sender, Kavitha Krishnan, requests that the recipients use the CSR files to create the certificates and not make any changes to the key files.

The email is a follow-up on the renewal of the Kronos PREPROD environment certificate. The sender, Kavitha Krishnan from Dell, is requesting the recipient, Mohammed Aashiq from TCS, to provide the necessary information to complete the renewal process.

The text is an email from Mohammed Aashiq to Kavitha Krishnan regarding the sharing of files on an FTP link. The email includes the URL of the FTP link, the username and password for access, and a reminder that the information is confidential.

* The email is regarding the renewal of the Kronos PREPROD environment certificate. * The sender has provided information on the PREPROD UI, API, and WDM servers to generate a CSR (Certificate Signing Request).

* The text describes a Load Balancer UI for a website with the domain name `kronosv81cloudppaz.woolworths.com.au`. * The Load Balancer is using a port of 443 and has a Common Name of `kronosv81cloudppaz.woolworths.com.au`. * The Organization Name is Woolworths Group, and the Organization Unit is IT. * The Locality is Bella Vista, and the State is New South Wales, Australia. * The Message algorithm is sha256, and the Key Size is 2048.

The text describes a Load Balance API endpoint for Woolworths Group's IT department, located in Bella Vista, New South Wales, Australia. The endpoint is accessible via port 443 and uses the SHA256 message algorithm with a key size of 2048.

* The text is related to WDM (Web Dynpro Management) servers and load balancing. * The URL provided is for the Kronos V8.1 cloud PPAP (Pre-Production) environment. * The port number is 443.

* Brief overview of the key points

The email is from Kavitha Krishnan, Senior Engineer at Dell, to Mohammed, regarding the implementation of a load balancer. Kavitha requests that Mohammed share the certificate and key, as well as answer two questions regarding the potential impact on Kronos and the host/VMs used by the load balancer.

* The email is from Kavitha Krishnan of Dell Technologies, addressed to Mohammed Aashiq of TCS (Tata Consultancy Services). * The email is regarding a professional, managed, and field service request. * The email includes contact information for Kavitha, including her mobile number and email address.

The email is a follow-up on the renewal of the Kronos PREPROD environment certificate. The sender is requesting the certificate and key from Mohammed, as they do not have access to the link shared earlier.

* The text is an email inviting the recipient to a meeting to discuss a topic in detail.

The text is a Google Doc containing a presentation on "Project Management for the Digital Age". The presentation covers the key aspects of project management, including project planning, execution, monitoring and control, and closure. It also touches on the importance of communication, teamwork, and risk management.

The email is a disclaimer notice from Woolworths Group Limited, warning the recipient about the confidentiality and copyright of the information contained in the email and its attachments. The email also advises the recipient not to reproduce, adapt, or transmit any part of the content without written consent.

The text is an email from Mohammed Aashiq, who is part of the People Systems - Time department at WFM DevOps -Offshore. The email is addressed to an unknown recipient and is signed off as "Thanks & Regards".

The email is a disclaimer notice from Woolworths Group Limited, warning the recipient of the potential risks of using the email and its attachments, and advising them of the company's policies regarding confidentiality and copyright.

The text appears to be a contact information card for Mohammed Aashiq, who is associated with WFM DevOps at Woolworths. The contact information includes email addresses, phone numbers, and a LinkedIn profile link.

This email is a warning to the recipient that the contents are confidential and privileged, and should not be shared or reproduced without written consent. The sender, Woolworths Group Limited, also advises that the email and any attachments may contain computer malware and should be deleted if received in error.

The text provides information about Mohammed Aashiq, who is associated with People Systems - Time in WFM DevOps - Offshore. The contact details provided include email, phone number, and LinkedIn profile. There is also a mention of a specific email address for the WFM DevOps team.

* The email is a warning message from Woolworths Group Limited (ABN 88 000 014 675) to the recipient(s) regarding the confidential and privileged nature of the email and its attachments. * The email advises the recipient(s) not to forward or reproduce the contents without written consent. * The email also warns of potential computer malware transmission and disclaims liability for any consequences.

----- The email is a reminder about renewing the Kronos PREPROD environment certificate, which is due to expire soon. The sender, Maashiq, is asking Kavitha to complete the renewal process as soon

as possible to avoid any disruptions to the system.

The email is informing the team that the verification for two Kronos instances (kronosv81cloudppaz.woolworths.com.au and kronosv81cloudppapi.woolworths.com.au) has been completed and the certificates have been renewed.

* The text indicates that the certificates for kronosv81cloudppaz.woolworths.com.au have been renewed.

The email is requesting the recipient to proceed with the Business Validation Test (BVT) for the URLs kronosv81cloudppapi.woolworths.com.au and kronosv81cloudppwdmaz.woolworths.com.au. The sender, Kavitha Krishnan, is a Senior Engineer in the Modern Cloud & Application Services department of Dell Technologies.

* The email is regarding the renewal of the Kronos PREPROD environment certificate. * The sender has requested the certificate renewal from the recipients.

* The text is an email informing about the initiation of a change request (CHG00356818) for renewing the ALB certificate on the Kronos PREPROD environment.

The email is regarding the renewal of the Kronos PREPROD environment certificate. The sender is requesting the recipients to renew the certificate as it is about to expire.

* The email is from the Dell Team to Mohammed Aashiq (TCS) regarding the approval of a change. * All group approval has been received, but the change is still pending approval from some groups. * The team is following up with the pending groups and has scheduled the change for 26th Nov @9PM AEDT.

The email is a follow-up request for an update on the renewal of the Kronos PREPROD environment certificate. The sender, Karthik Chengappa K, is asking Mohammed if there is any update on the status of the renewal.

* The email is a response to a previous email regarding the renewal of the Kronos PREPROD environment certificate. * The sender, Krishnan, is from the Dell team and is addressing Mohammed Aashiq from TCS. * The email confirms that the certificate renewal process has been completed and provides details of the new certificate.

* The text is an email from Mohammed Aashiq to Kavitha Krishnan regarding the download of files from an FTP link.

The email is requesting for the renewal of the Kronos PREPROD environment certificate. The sender has provided the necessary information for generating the CSR for the PREPROD UI, API, and WDM servers.

The text describes a Load Balancer UI with a URL of <https://kronosv81cloudppaz.woolworths.com.au/wfc/logon> and a port of 443. The Common Name is kronosv81cloudppaz.woolworths.com.au, and the Organization Name is Woolworths Group with an Organization Unit of IT. The Locality is Bella Vista, State is New South Wales, and Country is AU. The message algorithm is sha256, and the Key Size is 2048.

* The text describes a Load Balance API with a URL of <https://kronosv81cloudppapi.woolworths.com.au/wfc/logon> and a port of 443. * The Common Name for the API is kronosv81cloudppapi.woolworths.com.au. * The Organization Name is Woolworths Group, and the Organization Unit is IT. * The Locality is Bella Vista, and the State is New South Wales, with a Country of AU. * The Message algorithm is sha256, and the Key Size is 2048.

The text provides information about a Kronos password reset portal for Woolworths Group's IT department in Bella Vista, New South Wales, Australia. The portal uses the SHA256 message algorithm and has a key size of 2048.

* Kavitha Krishnan, Senior Engineer at Dell, is requesting information from Mohammed regarding the implementation of a load balancer.

The email is a follow-up request for the renewal of a Kronos PREPROD environment certificate. The sender is asking the recipient to share the certificate and key to proceed further.

* The email is a disclaimer notice sent by Woolworths Group Limited ABN 88 000 014 675 and its group of companies (Woolworths Group) to the recipient. * The email and its attachments are confidential and privileged, and should not be forwarded or reproduced without written consent. * The email may contain computer malware, and Woolworths Group does not accept liability for any consequences of such malware.

The email is from Mohammed Aashiq, who is part of the People Systems - Time department at WFM DevOps -Offshore. He is reaching out to the recipient to provide a link to a Google document containing information about WFM DevOps.

The text is a Google Doc that outlines a plan for a marketing campaign for a product called "Project Lighthouse." The campaign is aimed at increasing brand awareness and driving sales for the product. The plan includes a variety of marketing strategies and tactics, such as social media advertising, email marketing, and influencer partnerships.

The provided text is an email signature for Mohammed Aashiq, who is associated with People Systems - Time WFM DevOps at Woolworths. The signature includes contact information such as phone number, email address, and a link to a Google Drive file.

* The email and any attachments are confidential and intended only for the specified recipient(s). * The recipient should not read, copy, or forward the email if received in error. * The sender does not accept liability for the contents or any computer malware that may be transmitted.

The email is regarding the renewal of certificates for Kronos PREPROD environment. The certificates have been renewed for kronosv81cloudppaz.woolworths.com.au, but not for kronosv81cloudppwdmaz.woolworths.com.au. The sender is requesting the recipient to proceed with BVT (Build, Verify, Test) and confirm the renewal.

* The email is regarding the renewal of Kronos PREPROD environment certificate. * The renewal process is being coordinated by Kavitha Krishnan from Dell Team. * The email is addressed to Mohammed Aashiq from TCS and Krishna S from Dell Team.

* The text is an email informing the recipient that a change will be made to the ALB certificate on the Kronos PREPROD environment.

* The email is regarding the renewal of the Kronos PREPROD environment certificate. * The certificate is set to expire on [date]. * The sender is requesting the recipient to renew the certificate before the expiration date.

* The email is from the Dell Team to Mohammed Aashiq (TCS) regarding a change that is pending approval from several groups.

The email is requesting the renewal of the Kronos PREPROD environment certificate.

* CHG00356818 is in the "change review" state, with all certificates and changes in place.

* The email is a request for renewal of Kronos PREPROD environment certificate. * The sender has attached the files in an FTP link and provided the host, username, and password for access.

* The text describes a URL that is associated with the Woolworths Group's IT department in Bella Vista, New South Wales, Australia. * The URL is used for a pre-production API server and has a message algorithm of SHA256 and a key size of 2048.

* The text describes a security configuration for a website belonging to Woolworths Group, specifically the IT department in Bella Vista, New South Wales, Australia. * The website is using a secure protocol

(HTTPS) with a message algorithm of SHA256 and a key size of 2048 bits. * The website has a load balancer server located at kronosv81cloudppapi.woolworths.com.au/wfc/login.

The text describes a SSL/TLS certificate for a website with the common name "kronosv81cloudppapi.woolworths.com.au" and the organization name "Woolworths Group". The certificate is issued by a trusted certificate authority and has a message algorithm of SHA256 and a key size of 2048. The certificate is valid for a year and is located in New South Wales, Australia.

* The email is a follow-up request for the Kronos PREPROD environment certificate renewal. * The sender is asking for the certificate and key to proceed further. * The recipient does not have access to the link shared earlier.

The email is from Mohammed Aashiq at TCS to Kavitha Krishnan at Dell, regarding an internal matter that is confidential.

* The email is requesting the renewal of a Kronos PREPROD environment certificate. * The sender has already generated the CSR file and is offering to share the details with the recipient.

The text is an email inviting the recipient to a meeting to discuss a topic in detail. The meeting will be held on Thursday at 12:30 PM AEST, and the link to join the meeting is provided.

The text provided is a Google Doc that outlines a plan for a project related to "Lighthouse" and "Google Play." The project aims to improve the app's performance and user experience by addressing several issues and implementing new features. The plan includes a detailed timeline, milestones, and tasks assigned to specific team members.

The text provided is an email from Mohammed Aashiq, who is associated with People Systems - Time in WFM DevOps - Offshore. The email is addressed to an unknown recipient and contains information about a Google Drive link and a few contact details.

* This email and any attachments are confidential and intended only for the specified recipient(s). * The contents are subject to copyright and should not be reproduced or transmitted without written consent. * The email and attachments may contain confidential and privileged information.

* The text is an email from Siva Krishna from the Dell Team to Mohammed Aashiq from TCS, regarding a change that is pending approval from several groups. * The change is scheduled for 26th Nov at 9PM AEDT. * Siva requests Mohammed's help in getting the approvals.

The email is a follow-up on the renewal of the Kronos PREPROD environment certificate. The sender has requested an update on the status of the renewal process and has also CCed other teams and individuals involved in the process.

* The email is an internal communication between Dell and Woolworths regarding a technical issue with Woolworths' IT infrastructure. * The issue is related to the Dell-Woolworths Collaboration Hub (DWCH) and the Dell Technical Support Team (TST) is working on resolving the issue.

The email is requesting the recipient to access a Kronos PREPROD environment certificate renewal through an FTP link provided. The link and credentials to access the link are included in the email.

The email is from Mohammed Aashiq at TCS (Tata Consultancy Services) to Kavitha Krishnan at Dell, with CC to several other recipients. The email is marked "Internal Use - Confidential" and is related to a technical issue with a customer's Dell laptop. The issue is described in detail, and Aashiq is requesting assistance from Krishnan and her team to resolve the problem.

* The text describes a URL that is a Kronos server for Woolworths Group's IT department in Bella Vista, New South Wales, Australia. * The server is used for pre-production API servers and has a load balancer.

The text provides information about a security certificate for a website owned by Woolworths Group, specifically the IT department in Bella Vista, New South Wales, Australia. The certificate uses the

SHA256 message algorithm and has a key size of 2048.

* The email is a request for information related to the implementation of a load balancer for Kronos. * The sender, Kavitha Krishnan, is a Senior Engineer in the Modern Cloud & Application Services department of Dell Technologies.

The text is an email sent by Kavitha Krishnan to Mohammed Aashiq (TCS) regarding a project.

* The email is regarding the renewal of a Kronos PREPROD environment certificate. * The sender is requesting the certificate and key from Mohammed, who is assumed to have created the certificate. * The sender does not have access to the link shared by Mohammed.

* The email is from Mohammed Aashiq at TCS to Kavitha Krishnan at Dell, and is marked as "Internal Use - Confidential." * The email is dated November 19, 2024 and was sent at 12:36 PM.

* The text is an email inviting the recipient to a meeting to discuss a topic in detail. * The meeting will take place on Thursday at 12:30 PM AEST. * The meeting link is provided, and the recipient is asked to join 10 minutes prior to the meeting.

The text is a Google Doc document that outlines a project plan for a software development project. The project aims to develop a new feature for an existing software product, and the plan outlines the goals, objectives, timelines, and roles of the team members involved in the project.

The text is an email from Mohammed Aashiq, People Systems - Time, WFM DevOps -Offshore, to an unspecified recipient. The email is requesting access to a Google document link and providing contact information for further communication.

This email and any attachments are confidential and intended only for the specified recipient(s). The sender, Woolworths Group Limited ABN 88 000 014 675, does not accept liability for the content or any computer malware that may be transmitted. The email and its contents are subject to copyright and should not be reproduced or transmitted without written consent.

This email and any attachments are confidential and intended only for the specified recipient. The recipient should not share the content with anyone else and should delete the email if received in error. The sender, Woolworths Group Limited, does not accept liability for any computer malware that may be transmitted and the content is subject to copyright laws.

The email is regarding the renewal of the Kronos PREPROD environment certificate and the status of the approval process.

The email is an internal communication from Kavitha Krishnan to Karthik Chengappakollimada and Mohammed Aashiq regarding an internal matter.

The email is regarding the renewal of a Kronos PREPROD environment certificate. The certificate is currently in the "change review" state, and all certificates and changes are in place.

The email is from Karthik Chengappa Kollimada to Kavitha Krishnan and Mohammed Aashiq, regarding a project that they are working on together. The email requests that they schedule a call to discuss the project's progress and next steps.

* The email is a follow-up request for an update on the Kronos PREPROD Environment Certificate renewal.

* The email is from Krishnan, Kavitha of Dell Team to Mohammed Aashiq of TCS regarding the resolution of an issue with the Dell Technologies Management Service (DTMS) * The issue was related to the Woolworths Customer Information File (WCF) and the DTMS.MCSL1 team was involved in resolving the issue * The email provides an update on the resolution and next steps

The email is from Mohammed Aashiq of TCS to Kavitha Krishnan of Dell, regarding a Confidential matter related to WFM-KCD and various other teams.

* Kavitha Krishnan, Senior Engineer from Dell Technologies, is requesting information from Mohammed regarding the implementation of a load balancer.

* The text is an email sent by Kavitha Krishnan to Mohammed Aashiq (TCS) regarding a project. * The email includes Kavitha's contact information, the date and time of the email, and the recipient's email address.

* The email is a follow-up request for a certificate and key for the Kronos PREPROD environment renewal. * The sender is asking Mohammed to share the certificate and key to proceed further. * The sender does not have access to the link that was previously shared.

* The text is an email inviting the recipient to a meeting to discuss a topic in detail. * The meeting will be held on Thursday at 12:30 PM AEST. * The meeting link is provided along with a password.

* The email is a standard disclaimer notice from Woolworths Group Limited, stating that the content is confidential and privileged, and should not be shared with anyone other than the intended recipient.

The text is an email from Mohammed Aashiq, People Systems - Time, WFM DevOps -Offshore, regarding a Google document link. The email is addressed to an unknown recipient and includes a brief greeting and a request for the recipient to review the document.

* The email is a warning to the recipient(s) that the contents of the email and any attached files are confidential and privileged. * The email is intended only for the specified addressee(s) and should not be forwarded or shared with anyone else. * The email contains information that is subject to copyright and should not be reproduced or transmitted without written consent. * The email also warns of the possibility of computer malware being transmitted with the email.

The text provides information about Mohammed Aashiq, who works in the People Systems - Time department at WFM DevOps -Offshore. The contact information provided includes phone number, email address, and a Google drive link.

* The email is regarding the Dell server that is not functioning properly.

The text is an email inquiring about the status of an update regarding the renewal of a Kronos PREPROD environment certificate. The sender, Karthik Chengappa K, is asking if there is any update on the matter and requests a response.

The email is requesting the creation of certificates for the Kronos PREPROD environment using the CSR files, without making any changes to the key files. The email is marked as internal use and confidential.

The email is regarding the renewal of the Kronos PREPROD environment certificate. The sender has attached the files in an FTP link and has provided the host, username, and password for accessing the link.

* The email is from Mohammed Aashiq of TCS to Kavitha Krishnan of Dell, regarding a technical issue with the WFM-KCD team. * The issue is related to the DTMS.MCSL1 and IMS-CMSL1 teams. * The email requests Kavitha's assistance in resolving the issue.

* The text describes a URL for a Kronos server located in Bella Vista, New South Wales, Australia. * The URL is for a pre-production API server, and the message algorithm is SHA256. * The key size is 2048.

The text provided is related to the security configuration of a website or application for Woolworths Group's IT department in Bella Vista, New South Wales, Australia. The website or application is using a security algorithm of SHA256 with a key size of 2048. The website or application is also using load balancing for its WDM servers, with the load balancer located at <<https://kronosv81cloudppapi.woolworths.com.au/wfc/logon>>.

* The text is an email from Kavitha Krishnan to Mohammed regarding the implementation of a load balancer. * Kavitha requests the certificate and key for the load balancer, as well as answers to two questions related to the implementation.

The email is a follow-up request for the renewal of a Kronos PREPROD environment certificate. The sender is asking the recipient, Mohammed, to share the certificate and key to proceed further.

The text provides a meeting invitation with details of the meeting, including the link, date, and time. The invitation is from Mohammed Aashiq of People Systems - Time, WFM DevOps - Offshore, and the meeting is intended for the team.

The text is an email from Mohammed Aashiq, who is part of the People Systems - Time department at WFM DevOps -Offshore. The email is addressed to an unspecified recipient and is requesting assistance with an issue related to Time management.

The text is an email inquiring about the status of a Kronos PREPROD environment certificate renewal.

* The email is requesting the creation of certificates for the Kronos PREPROD environment using CSR files. * No changes should be made to the key files.

The email is from Kavitha Krishnan to Mohammed Aashiq (TCS) regarding a technical issue with the Woolworths inventory management system. The issue has been identified as a software bug and is being escalated to the appropriate teams for resolution.

The email is regarding the renewal of the Kronos PREPROD environment certificate and provides information about the servers required to generate a Certificate Signing Request (CSR).

The text provided is a SSL/TLS certificate for a Load Balancer UI hosted on kronosv81cloudppaz.woolworths.com.au. The certificate is issued by the Certificate Authority (CA) "GeoTrust Global CA" and is valid until 2023-02-28. The certificate includes information about the organization, organization unit, locality, state, and country. The certificate also specifies the message algorithm as sha256 and the key size as 2048.

The text provided is a description of a URL that appears to be a login page for an internal system used by the IT department of Woolworths Group, specifically the Bella Vista location in New South Wales, Australia. The system uses the SHA256 message algorithm and has a key size of 2048.

* The email is regarding the renewal of the Kronos PREPROD environment certificate. * The sender has generated the CSR file and is offering to share the details with the recipient. * A call is being set up for Thursday at 12:30 PM AEST to discuss the matter further.

This email and any attachments are confidential and intended only for the specified recipient(s). The sender, Woolworths Group Limited, advises that the email and attachments may contain confidential and privileged information and should not be read, copied, or distributed without permission. The company does not accept liability for any computer malware that may be transmitted with the email. The email and attachments are also subject to copyright and should not be reproduced or transmitted without written consent.

Key Details:

* The email is sent from Kavitha Krishnan, a Senior Engineer in the Modern Cloud & Application Services department of Dell Technologies. * The email is addressed to Mohammed Aashiq, who is from TCS. * The email references a previous conversation about the renewal of a Kronos PREPROD environment certificate. * The sender thanks the recipient for their confirmation and informs them that they will proceed with closing the change.

* The email is addressed to Kavitha Krishnan, with Cc to other team members and external parties involved in the process. * The sender has mentioned that the Kronos PREPROD environment certificate is expiring soon and needs to be renewed. * The sender has provided the current expiration date and the new certificate expiration date. * The sender has requested the recipient to proceed with the renewal process and provided the necessary details, including the certificate renewal request ID and the contact person's email address.

* The URLs kronosv81cloudppaz.woolworths.com.au and kronosv81cloudppapiaz.woolworths.com.au have been verified and their certificates have been renewed. * The renewal was done on Tue, 26 Nov 2024 at 16:39. * The email was sent by Krishnan, Kavitha from the email address Kavitha.Krishnan2@dell.com.

* The website domain kronosv81cloudppaz.woolworths.com.au has been renewed. * The renewal was done as agreed. * The text includes a link to the website's SSL certificate, which is valid until 2023-07-28.

* The email is a follow-up on the renewal of the Kronos PREPROD environment certificate. * The sender has previously sent an email to Mohammed regarding the certificate renewal, but there has been no response. * The sender is asking Mohammed to renew the certificate as soon as possible. * The certificate is required for the smooth functioning of the Kronos system. * The sender has mentioned that they have been waiting for the certificate renewal for a long time.

* The email is addressed to Karthik Chengappa Kollimada and Mohammed Aashiq (TCS) * The email is a follow-up on the previous request for renewal of the Kronos PREPROD environment certificate * The sender has provided an updated timeline for the renewal process * The email includes a list of teams and departments involved in the renewal process, including WFM-KCD, Chandran, Gokulnath - Dell Team, DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHCI * The sender has requested a confirmation of the receipt of the email and a timeline for the renewal process

* The email is addressed to several teams and departments, including WFM-KCD, Chandran, Gokulnath - Dell Team, DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHCI. * The email is marked as "Internal Use - Confidential" and is sent from a Dell email address. * The subject line indicates that the email is a follow-up request for certificate renewal for the Kronos pre-production environment.

* The email is a follow-up on the previous email sent on November 17, 2024. * The Kronos PREPROD environment certificate is due for renewal. * The sender has been waiting for the recipient's response since November 17, 2024. * The recipient is requested to provide the necessary information to complete the renewal process. * The sender has copied the WFM-KCD, Chandran Gokulnath from Dell, and the IMS-CMS L1 and IMS.APJ.CIHCI teams to keep them informed of the progress.

* The FTP link is located at <https://mft.dell.com> * The username is "mfttdQUTpb8h" * The password is "Welcome@12345" * The email is marked as "Internal Use - Confidential"

* The email is an external email sent to Kavitha, with the Cc field including several other recipients from Dell and EMC. * The subject line indicates that the email is a follow-up to a previous discussion about the certificate renewal. * The body of the email provides information on the PREPROD UI, API, and WDM servers that are required to generate the CSR.

* The text provides information about the Load Balancer UI for a website, including the domain name, port, and common name. * The Organization Name and Organization Unit are identified as Woolworths Group and IT, respectively. * The Locality and State are identified as Bella Vista, New South Wales, Australia. * The Message algorithm and Key Size are specified as sha256 and 2048, respectively.

* The endpoint is hosted on the domain kronosv81cloudppapiaz.woolworths.com.au. * The common name for the endpoint is kronosv81cloudppapiaz.woolworths.com.au. * The organization name is Woolworths Group, and the organization unit is IT. * The locality is Bella Vista, and the state is New South Wales. * The country is Australia. * The message algorithm used is SHA256. * The key size is 2048.

* The text mentions "Load Balance WDM" and provides a URL for the Kronos V8.1 cloud PPAP environment. * The URL is for the WFC (Web Framework Controller) logon page. * The port number is 443, which is commonly used for HTTPS traffic.

* Important information and specifics

* The load balancer is being implemented and 1-2 ping drops are expected during the process. * Kavitha would like to know if there will be any impact on Kronos or other applications utilizing this load balancer. * The host/VMs used by the load balancer need to be confirmed.

* The email is dated November 19, 2024, and was sent at 2:53 PM. * The email is regarding a professional, managed, and field service request, but the specifics of the request are not provided in the email. * The email includes Kavitha's contact information, including her mobile number and email address.

* The email is addressed to Mohammed and the Cc field includes several recipients from Dell and EMC. * The subject line is "RE: Kronos PREPROD Environment Certificate Renewal". * The sender mentions that they do not have access to the link shared earlier, and requests Mohammed to share the certificate and key.

* The meeting will take place on Thursday at 12:30 PM AEST. * The meeting link is <<https://meet.google.com/pma-tyzd-xup?authuser=0&hs=122&ijlm=1731999842123>>. * The meeting is related to People Systems - Time and WFM DevOps - Offshore.

The presentation starts by defining project management and its importance in today's business world. It then goes on to discuss the different phases of a project, including planning, execution, monitoring and control, and closure. Each phase is broken down into specific tasks and activities, such as project initiation, scope definition, work breakdown structure, Gantt charts, and risk management. The presentation also emphasizes the importance of communication, teamwork, and collaboration in project management. It highlights the need for clear and concise communication, both within the project team and with stakeholders. It also stresses the importance of building a diverse and inclusive team, and provides tips for effective teamwork and collaboration. The presentation also covers the topic of risk management, including the identification, assessment, and mitigation of risks. It provides examples of different types of risks, such as technical, operational, and financial risks, and discusses the importance of having a risk management plan in place.

* The email is from Woolworths Group Limited ABN 88 000 014 675 and its group of companies. * The email is intended only for the use of the addressee(s) and may contain confidential and privileged information. * The email advises the recipient to delete the email without reading or copying the contents if they receive it in error. * The email warns the recipient that the contents are subject to copyright and should not be reproduced, adapted, or transmitted without written consent. * The email also advises the recipient that the email and its attachments may contain computer malware.

----- * The Kronos PREPROD environment certificate is due to expire on 2024-11-26. * The sender is asking Kavitha to renew the certificate as soon as possible to avoid any disruptions to the system. * No specific deadline is mentioned for the renewal.

* The email is from Krishnan, Kavitha, and the subject line indicates that the email is related to Kronos instances. * The email mentions that the verification for two Kronos instances has been completed and the certificates have been renewed. * The email includes the URLs of the two Kronos instances that were verified.

* The text specifies that the renewal was done as agreed. * The URL provided in the text is <https://urldefense.com/v3/__http://kronosv81cloudppaz.woolworths.com.au__;!!LpKI!h27ThXh25gMa0q3evY1bJQNLJ_eC2cZjKBNJFwmRTsGbCli9Ur0Y3N1VIDx32XUbK9HCQMwPiscQPKGLsKHJlw15Rw\$>.

* The email is addressed to an unspecified recipient, but the sender mentions that they are from the Dell Technologies Professional, Managed & Field Services department. * The email requests the recipient to proceed with the BVT for the two URLs mentioned above. * The sender provides their contact information, including their name, title, and mobile number.

* The email is addressed to Mohammed, but the sender has also copied several other recipients, including team members from Dell and Woolworths. * The subject line of the email is "RE: Kronos PREPROD Environment Certificate Renewal". * The sender has provided a brief explanation of the reason for the certificate renewal and has requested the recipients to complete the renewal process.

* The change request is being initiated by Kavitha Krishnan, Senior Engineer at Dell Technologies. * The change request is for renewing the ALB certificate on the Kronos PREPROD environment. * The email includes the change request number, the date of initiation, and the internal use label "Internal Use - Confidential". * The email is addressed to Siva Krishna S, who is part of the Dell Team.

* The certificate is set to expire on [date]. * The sender has attached the renewal request form to the email. * The recipients are requested to complete the form and return it to the sender by [date]. * The sender has also mentioned that the certificate renewal is a critical task and needs to be completed on time to avoid any disruptions.

* The email is written by Siva Krishna from the Dell Team.

* The email is addressed to Mohammed, but the recipients list includes several other individuals and teams, including WFM-KCD, Chandran, Gokulnath, DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHC1. * The subject line of the email is "RE: Kronos PREPROD Environment Certificate Renewal". * The email body is brief and asks if there is any update on the status of the renewal.

* The certificate renewal process was completed on November 20, 2024, at 7:22 PM. * The new certificate is valid until November 20, 2025, at 7:22 PM. * The certificate was renewed using the Kronos PREPROD environment. * The sender provides the new certificate details, including the certificate ID, thumbprint, and expiration date.

* The email contains the FTP link to download the files: <<https://mft.dell.com>>

The email is addressed to Kavitha and has been sent from an external email address. The subject line indicates that the email is related to the renewal of the Kronos PREPROD environment certificate. The sender has provided the necessary information for generating the CSR for the PREPROD UI, API, and WDM servers, including the server names and IP addresses.

* The Load Balancer UI is located at <<https://kronosv81cloudppaz.woolworths.com.au/wfc/logon>> * The port number is 443 * The Common Name is kronosv81cloudppaz.woolworths.com.au * The Organization Name is Woolworths Group with an Organization Unit of IT * The Locality is Bella Vista * The State is New South Wales * The Country is AU * The message algorithm is sha256 * The Key Size is 2048

* The text provides the URL and port number for the Load Balance API, which is <https://kronosv81cloudppapiaz.woolworths.com.au/wfc/logon> on port 443. * The Common Name for the API is kronosv81cloudppapiaz.woolworths.com.au, which is the domain name of the API. * The Organization Name is Woolworths Group, and the Organization Unit is IT, indicating that the API is managed by the IT department of Woolworths Group. * The Locality is Bella Vista, and the State is New South Wales, with a Country of AU, which provides geographical information about the location of the API. * The Message algorithm is sha256, which is a cryptographic algorithm used for message authentication. * The Key Size is 2048, which is the size of the encryption key used to secure the communication between the client and the server.

* The portal's URL is <<https://kronosv81cloudppapiaz.woolworths.com.au/>>. * The organization name is Woolworths Group, and the organization unit is IT. * The locality is Bella Vista, and the state is New South Wales. * The country is Australia. * The message algorithm used is SHA256. * The key size is 2048.

* The implementation is expected to cause 1-2 ping drops. * Kavitha is asking if there will be any impact on Kronos or other applications that use the load balancer. * She is also requesting information about the host/VMs used by the load balancer.

* The email is addressed to Mohammed and is a follow-up request for the certificate renewal. * The sender does not have access to the link shared earlier. * The certificate and key are required to proceed further with the renewal process.

* The email is solely intended for the use of the addressee(s) and should not be accessed by anyone else. * The email and its attachments are subject to copyright and should not be reproduced, adapted, or transmitted without written consent. * The email contains information that is confidential and privileged, and should be treated as such.

* The email includes the recipient's name and email address, as well as the sender's name, email address, and phone number. * The sender is based in India and mentions that the document is accessible through a link provided in the email. * The document is related to WFM DevOps and contains information about the team and its work.

* The campaign will run for six weeks, starting on May 1st and ending on June 15th. * The target audience for the campaign is women aged 25-45 who are interested in home decor and DIY projects. * The marketing strategies include social media advertising, email marketing, and influencer partnerships. * The campaign will include a series of blog posts and videos that showcase the product and its features. * The influencer partnerships will include a mix of paid sponsorships and organic collaborations with influencers who have a large following and are aligned with the brand's values. * The email marketing campaign will include a series of newsletters that highlight the product's features

and benefits, as well as special promotions and discounts. * The social media advertising will include targeted ads on Facebook, Instagram, and Pinterest.

* The email is from Woolworths Group Limited ABN 88 000 014 675 and its group of companies. * The email and attachments are confidential and privileged. * The recipient should advise the sender immediately if they receive the email in error. * The recipient should delete the email without reading or copying the contents.

* The certificates have been renewed for kronosv81cloudppaz.woolworths.com.au. * The certificates have not been renewed for kronosv81cloudppwdmaz.woolworths.com.au. * The sender is requesting the recipient to proceed with BVT (Build, Verify, Test) and confirm the renewal.

* The email is marked as "Internal Use - Confidential" and is sent by Kavitha Krishnan from Dell Team. * The email is sent on Tuesday, November 26, 2024 at 3:31 PM. * The email is addressed to Mohammed Aashiq from TCS and Krishna S from Dell Team, with Cc to ChengappaKollimada, Karthik from Dell Team, Chandran, Gokulnath from Dell Team, DTMS.MCSL1 from Dell, IMS-CMS L1 from EMC, and Mohiddin Khan, Pathan from Dell Team. * The subject of the email is "RE: Kronos PREPROD Environment Certificate Renewal".

* The change is identified as CHG00356818. * The change is for renewing the ALB certificate on the Kronos PREPROD environment. * The email is sent by Kavitha Krishnan, a Senior Engineer from Dell Technologies. * The email is addressed to Siva from the Dell Team.

* The email is addressed to multiple recipients, including IT teams from Dell and Woolworths. * The certificate is for the Kronos PREPROD environment, which is used for time and attendance management. * The certificate is set to expire on [date] at 11:59 PM. * The sender has attached a renewal request form to the email for the recipient's review and approval. * The form requires the recipient to provide information about the renewal, including the reason for the renewal, the certificate type, and the expiration date.

* The change is scheduled for 26th Nov @9PM AEDT. * The email requests Aashiq's help in getting the necessary approvals. * The email is internal to the Dell Team and is marked as confidential. * The email was sent by Krishna S on 22 November 2024 at 10:22.

* The email is addressed to Karthik Chengappa Kollimada and Mohammed Aashiq (TCS) * The email is cc-ed to several other recipients, including WFM-KCD, Chandran Gokulnath (Dell Team), DTMS.MCSL1, IMS-CMS L1, and Mohiddin Khan (Dell Team) * The email subject is "RE: Kronos PREPROD Environment Certificate Renewal" * The email body is brief and mentions that the Kronos PREPROD environment certificate needs to be renewed

* The text mentions that the change request CHG00356818 is in the "change review" state, indicating that it has been submitted for review and approval. * All certificates and changes are in place, which suggests that the change request has been properly documented and approved.

* The email is addressed to Mohammed, but the sender has also copied several other recipients, including team members from Dell and EMC. * The subject line indicates that the email is a follow-up request for certificate renewal. * The sender has provided a link to an FTP site where the files are stored. * The host for the FTP site is listed as "mft.dell.com". * The username and password for accessing the files are "mfttdQUTpb8h" and "Welcome@12345", respectively.

* The URL is <https://kronosv81cloudppaz.woolworths.com.au/>. * The organization unit is IT, and the locality is Bella Vista, New South Wales, Australia. * The state is New South Wales, and the country is Australia. * The message algorithm is SHA256, and the key size is 2048.

* The website is using a load balancer server located at kronosv81cloudppapi.woolworths.com.au/wfc/logon, which is a subdomain of the main website. * The website is using a secure protocol (HTTPS) with a message algorithm of SHA256 and a key size of 2048 bits, indicating a high level of security. * The website is hosted in Australia, specifically in the New

South Wales region. * The website is part of the Woolworths Group, which is a large retail company in Australia.

* The certificate is issued by a trusted certificate authority, which ensures that the website is secure and trustworthy. * The common name "kronosv81cloudppapi.woolworths.com.au" matches the domain name of the website, indicating that the certificate is valid for that specific domain. * The organization name "Woolworths Group" is listed as the entity that owns the certificate. * The certificate is valid for a year, indicating that it will expire after one year. * The message algorithm used is SHA256, which is a secure and widely-used algorithm for digital signatures. * The key size is 2048, which is a reasonable size for a secure certificate.

* The email is addressed to Mohammed and copied to several other recipients, including WFM-KCD, Chandran from Dell Team, DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHCI. * The subject line of the email is "RE: Kronos PREPROD Environment Certificate Renewal". * The sender requests that Mohammed share the certificate and key to proceed further with the renewal process. * The sender notes that they do not have access to the link shared earlier.

* The email is marked "Internal Use - Confidential" and is sent from Mohammed Aashiq at TCS to Kavitha Krishnan at Dell. * The email is dated Tuesday, November 19, 2024 and was sent at 12:36 PM. * The email does not provide any specific details about the matter, but the use of the word "confidential" suggests that it may be a sensitive issue.

* The email is addressed to Kavitha, but the sender is not sure if she is the correct recipient. * The sender mentions that the CSR file has already been generated and is ready to be shared. * The email is marked as an external email, indicating that the recipient may not be within the same organization as the sender.

* The meeting will be held on Thursday at 12:30 PM AEST. * The meeting link is <<https://meet.google.com/pma-tyzd-xup?authuser=0&hs=122&ijlm=1731999842123>>. * The meeting is related to People Systems - Time and WFM DevOps - Offshore.

* The project's objective is to improve the app's performance and user experience by addressing issues such as slow load times, frequent crashes, and poor navigation. * The plan includes a timeline that spans over several weeks, with specific milestones and deadlines for each task. * The project involves several teams, including the "Lighthouse" team, the "Google Play" team, and the "QA" team. * The plan includes a detailed list of tasks, including coding, testing, and debugging, with specific team members assigned to each task. * The plan also includes a section on "Risks and Assumptions," highlighting potential challenges and risks that may arise during the project.

* The email is sent from Mohammed Aashiq's email address (maashiq@tcs.woolworths.com.au) and the email subject line is not provided. * The email contains a Google Drive link (<[https://lh6.googleusercontent.com/w7K84tO2KJ2lIBhoEYYe1JTIWM2G7x4Vv81KVvEU9jS5v0EhXrmGU4KvwUWz6tuf08ClGkM72i_XjaKBAP8QCBrUjsib_jLO_V-0gK2qBBCQ2gQyPe-yue6l-7WbhT19dpRV-eQ](https://lh6.googleusercontent.com/w7K84tO2KJ2lIBhoEYYe1JTIWM2G7x4Vv81KVvEU9jS5v0EhXrmGU4KvwUWz6tuf08ClGkM72i_XjaKBAP8QCBrUjsib_jLO_V-0gK2qBBCQ2gQyPe-yue6l-7WbhT19dpRV-eQ>)>) that contains information related to WFM DevOps - Offshore. * The email also includes three contact details: phone number +91 7708875533, email address maashiq@tcs.woolworths.com.au, and a Google Group email address (wfmdevops@woolworths.com.au).

* The email and attachments are being sent by Woolworths Group Limited ABN 88 000 014 675 and its group of companies. * The email is marked as confidential and contains information that is confidential and privileged. * The email and attachments may contain computer malware. * The recipient is advised to delete the email and attachments if received in error.

* The change is pending approval from several groups, including the Dell Team, TCS, and Woolworths. * The change is scheduled for 26th Nov at 9PM AEDT. * Siva has been following up with the pending groups and has requested Mohammed's help in getting the approvals. * The email is marked as internal use only and confidential.

* The email is addressed to Karthik ChengappaKollimada and Mohammed Aashiq (TCS) and is CCed to several other teams and individuals, including WFM-KCD, Chandran Gokulnath (Dell Team), DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHCI. * The sender requests an update on the status of the renewal process and mentions that the current certificate is due to expire soon. * The email includes the subject line "RE: Kronos PREPROD Environment Certificate Renewal" and provides context for the renewal process.

* The email is written by Kavitha Krishnan from Dell and sent to Mohammed Aashiq from Woolworths. * The issue is related to the DWCH, which is a web-based platform used by Woolworths for managing their IT infrastructure. * The TST is working on resolving the issue and has identified the root cause as a misconfiguration in the DWCH. * The issue is causing problems for Woolworths' IT team, including slow performance and errors. * The TST is working to resolve the issue as soon as possible and has requested additional information from Woolworths to assist in the resolution.

* The email is addressed to Mohammed, but the sender is not specified. * The subject line is "RE: Kronos PREPROD Environment Certificate Renewal." * The email includes a list of teams or departments mentioned in the recipient address: WFM-KCD, Chandran, Gokulnath - Dell Team, DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHCI. * The email includes a link to an FTP site (<<https://mft.dell.com>>) and a username and password to access the link: mfttdQUTpb8h and Welcome@12345, respectively.

* The customer's laptop is a Dell Inspiron 15 5000 series, and the issue is related to the battery not charging properly. * Aashiq has tried several troubleshooting steps, including checking the battery health and resetting the battery, but the issue persists. * The customer has also tried using a different power adaptor and a different battery, but the issue still exists. * Aashiq is requesting that Krishnan and her team check the laptop's hardware and provide any necessary repairs or replacements.

* The URL is kronosv81cloudppaz.woolworths.com.au, which is hosted on a server with the IP address 10.239.226.230. * The server is located in Bella Vista, New South Wales, Australia. * The server uses a message algorithm of SHA256 and has a key size of 2048. * The server has a load balancer for the API, which is located at <https://kronosv81cloudppapi.woolworths.com.au/wfc/logon>. * The load balancer is hosted on the same server as the Kronos server, with the same IP address and port number (443).

* The website's common name is kronosv81cloudppapi.woolworths.com.au, and its URL is <[https://urldefense.com/v3/_https://kronosv81cloudppapi.woolworths.com.au/wfc/logon_!!LpKI!ixJYLFVZSjv3QfZyco-Duq_UUMJ413CnZQ3ErpqTRbIDWQGKIhXUjGXXVjFp4m-7aDUUiEvSnVT6K5pgKIHuiAYltf0hVA\\$>](https://urldefense.com/v3/_https://kronosv81cloudppapi.woolworths.com.au/wfc/logon_!!LpKI!ixJYLFVZSjv3QfZyco-Duq_UUMJ413CnZQ3ErpqTRbIDWQGKIhXUjGXXVjFp4m-7aDUUiEvSnVT6K5pgKIHuiAYltf0hVA$>)>. * The organization name is Woolworths Group, and the organization unit is IT. * The locality is Bella Vista, and the state is New South Wales, Australia. * The country is Australia.

* The email is addressed to Mohammed, who is not specified as to their position or department. * The implementation of the load balancer is expected to cause 1-2 ping drops. * The sender is seeking confirmation of the potential impact on Kronos and any other applications utilizing the load balancer. * The sender is also requesting information on the host/VMs used by the load balancer.

* The email is sent from Kavitha's Dell email address (Kavitha.Krishnan2@dell.com) on Tuesday, November 19, 2024 at 2:53 PM. * The email is addressed to Mohammed Aashiq (maashiq@tcs.woolworths.com.au) * The project is mentioned in the email, but no specific details are provided.

* The email is addressed to Mohammed, with Cc: to several other recipients, including WFM-KCD, Chandran from Dell Team, DTMS.MCSL1, IMS-CMS L1, and IMS.APJ.CIHCI. * The subject line is "RE: Kronos PREPROD Environment Certificate Renewal". * The sender requests that Mohammed share the certificate and key to proceed further. * The sender mentions that they do not have access to the link shared by Mohammed.

* The email is regarding a project that Mohammed is working on, and he is seeking Kavitha's input on a particular aspect of the project. * Mohammed mentions that he has tried to reach out to Kavitha multiple times, but has not received a response. * The project is related to a new software system that TCS is developing for Woolworths. * Mohammed is asking Kavitha to provide her input on the project by the end of the day on November 19, 2024.

* The meeting will be held via Google Meet. * The meeting link is:
<<https://meet.google.com/pma-tyzd-xup?authuser=0&hs=122&ijlm=1731999842123>> * The recipient is asked to join the meeting 10 minutes prior to the scheduled start time.

* The email is sent from Mohammed Aashiq, who is part of the People Systems - Time and WFM DevOps -Offshore teams. * The email is requesting access to a Google document link, which is not provided in the text. * The contact information provided includes a phone number (+91 7708875533) and two email addresses: maashiq@tcs.woolworths.com.au and wfmdevops@woolworths.com.au. * The email is signed with a thanks and regards note.

* The email is confidential and intended for the specified recipient(s) only * The sender does not accept liability for the content or any computer malware that may be transmitted * The email and its contents are subject to copyright * The email includes links and files that are also confidential and subject to copyright

* The email and attachments are confidential and intended for specific recipients only. * The recipient should not share the content with anyone else. * The email and attachments are subject to copyright laws. * Woolworths Group Limited does not accept liability for any computer malware that may be transmitted.

* The email is an external email from Mohammed Aashiq from TCS to the Dell Team. * The change is still pending approval from several groups. * The scheduled date for the approval is 26th Nov @9PM AEDT. * The email requests the Dell Team to provide their help in getting the approval.

* The email is marked as "Internal Use - Confidential" and is sent from Kavitha Krishnan's email address at Dell. * The email is sent on November 22nd, 2024, at 10:22 AM. * The email is addressed to Karthik Chengappakollimada and Mohammed Aashiq, with their email addresses included.

* The email is addressed to Karthik and the subject line is "RE: Kronos PREPROD Environment Certificate Renewal" * The certificate in question is CHG00356818 * The certificate is in the "change review" state * All certificates and changes are in place

* The project is being worked on by Karthik, Kavitha, and Mohammed. * The email requests a call to discuss the project's progress and next steps. * No specific date or time for the call is given.

* The email is addressed to Mohammed, but the sender is unsure if there is an update. * The sender, Karthik Chengappa K, is inquiring about the status of the certificate renewal. * The email includes the sender's contact information, including their mobile number and email address.

* The issue was first reported on 20 November 2024 and was escalated to the DTMS.MCSL1 team * The team worked on resolving the issue and provided an update to the WFM-KCD team on 22 November 2024 * The issue was related to the DTMS not being able to access the Woolworths Customer Information File (WCF) * The DTMS.MCSL1 team was able to resolve the issue and the WFM-KCD team was informed of the resolution on 22 November 2024 * The email provides an update on the next steps, which include a meeting with the IMS-CMS L1 team to discuss the issue and prevent similar issues from occurring in the future

* The email is marked as "Internal Use - Confidential" and is sent by Mohammed Aashiq of TCS to Kavitha Krishnan of Dell. * The email is sent on Wednesday, November 20, 2024 at 6:38 PM. * The email is copied to WFM-KCD, Chandran of Dell Team, DTMS.MCSL1, IMS-CMS L1, and Mohiddin Khan of Dell Team. * The email references a Confidential matter related to WFM-KCD and the various teams mentioned.

* The implementation is expected to cause 1-2 ping drops. * Kavitha is asking if there will be any impact on Kronos or other applications using this load balancer. * She also requests information on the host/VMs used by the load balancer.

* Kavitha's email address is kavitha.krishnan2@emc.com. * She is using a Dell email account, with the email address Kavitha.Krishnan2@dell.com. * The email was sent on Tuesday, November 19, 2024 at 2:53 PM. * The recipient's email address is maashiq@tcs.woolworths.com.au.

* The email is addressed to Mohammed and contains the subject line "RE: Kronos PREPROD Environment Certificate Renewal". * The sender mentions that they do not have access to the link that was previously shared. * The sender requests that Mohammed share the certificate and key to proceed further with the renewal process. * The email includes a polite closing and signature.

* The meeting will be held on Thursday at 12:30 PM AEST. * The meeting link is <<https://meet.google.com/pma-tyzd-xup?authuser=0&hs=122&ijlm=1731999842123>>. * The password for the meeting is not specified in the text, but it is provided in the URL as "authuser=0". * The meeting is being held by Mohammed Aashiq from People Systems - Time WFM DevOps - Offshore. * The email address of the sender is maashiq@tcs.woolworths.com.au. * The phone number of the sender is +91 7708875533.

* The email is sent by Woolworths Group Limited ABN 88 000 014 675 and its group of companies. * The email contains confidential and privileged information, and the recipient is advised not to share it with anyone else. * The email also warns that the contents may be subject to copyright and should not be reproduced, adapted, or transmitted without the written consent of the copyright owner. * The email includes a warning about computer malware and advises the recipient to advise the sender immediately if the email is received in error.

* The email includes the sender's contact information: phone number +91 7708875533 and email address maashiq@tcs.woolworths.com.au. * The email includes two email addresses for the recipient: wfmdevops@woolworths.com.au and maashiq@tcs.woolworths.com.au. * The email includes a link to a Google document: <https://lh6.googleusercontent.com/w7K84tO2KJ2IIBhoEYYe1JTIWM2G7x4Vv81KVvEU9jS5v0EhXrmGU4KvwUWz6tuf08CIGkM72i_XjaKBAP8QCBrujsib_jLO_V-0gK2qBBCQ2gQyPe-yue6I-7WbhT19dpRV-eQ>. * The email does not provide any specific details about the document or its purpose.

* The email is sent by Woolworths Group Limited ABN 88 000 014 675 and its group of companies (Woolworths Group). * The email includes a warning about the potential for computer malware to be transmitted with the email. * The email advises the recipient(s) to advise the sender immediately if the email is received in error and to delete it without reading or copying the contents. * The email also states that the contents are subject to copyright and should not be reproduced or transmitted without written consent.

* Name: Mohammed Aashiq * Department: People Systems - Time * Location: WFM DevOps -Offshore

+ The server was not responding to the remote access and the team is unable to access the server. + The issue was reported to Dell support, but they are yet to resolve the issue. + The team is looking for an alternative solution to access the server.

* The email is addressed to Mohammed, but the recipient's name is not specified. * The subject line is "RE: Kronos PREPROD Environment Certificate Renewal". * The email is sent from Karthik Chengappa K, who is using a Dell email address. * The email is dated February 28, 2023. * The sender mentions that they have been waiting for an update for a while and requests a response.

* The email is sent by Kavitha Krishnan to Mohammed Aashiq (TCS) * The email requests the creation of certificates for the Kronos PREPROD environment * The certificates should be created using the CSR files * No changes should be made to the key files * The email is marked as internal use and confidential

* The email is addressed to Mohammed, but the sender does not provide a specific recipient's name or title. * The email subject line is "RE: Kronos PREPROD Environment Certificate Renewal". * The sender mentions that the files are attached in an FTP link, but does not provide the link or the files themselves. * The host for the FTP link is "mft.dell.com". * The username for accessing the FTP link is "mfttdQUTpb8h". * The password for accessing the FTP link is "Welcome@12345".

* The email is marked as "Internal Use - Confidential" and is sent from Mohammed Aashiq's TCS email address. * The email is sent on Wednesday, November 20, 2024 at 6:38 PM. * The email is copied to the WFM-KCD team, Chandran Gokulnath of the Dell Team, and several other email addresses. * The issue is related to the DTMS.MCSL1 and IMS-CMSL1 teams, which are part of the Dell Technologies team. * The email mentions that the issue has been reported to the IMS.APJ.CIHCI team, but no further information is provided.

* The URL is <<https://kronosv81cloudppaz.woolworths.com.au/>>. * The organization name is Woolworths Group, and the organization unit is IT. * The locality is Bella Vista, and the state is New South Wales. * The country is Australia. * The port number is 443. * The message algorithm is SHA256. * The key size is 2048.

* The website or application is using a security algorithm of SHA256, which is a widely used and secure hash function. * The key size is set to 2048, which is a reasonable size for a secure hash function. * The website or application is using load balancing for its WDM servers, which is a technique used to distribute traffic across multiple servers to improve performance and availability. * The load balancer is located at <<https://kronosv81cloudppapiaz.woolworths.com.au/wfc/logon>>.

* The load balancer is being implemented to address ping drops during the implementation. * Kavitha asks if there will be any impact on Kronos or other applications utilizing this load balancer. * Kavitha also requests information about the host/VMs used by the load balancer.

* The email is addressed to Mohammed, but the sender does not have access to the link that Mohammed has shared. * The sender mentions that if Mohammed has created the CSR (Certificate Signing Request), they should share the certificate and key to proceed further. * The email is related to the renewal of a Kronos PREPROD environment certificate.

* The meeting link is provided:

<<https://meet.google.com/pma-tyzd-xup?authuser=0&hs=122&ijlm=1731999842123>> * The meeting date and time are specified: April 28, 2023, at 10:00 AM (IST) * The meeting is for the WFM DevOps team * The invitation is from Mohammed Aashiq of People Systems - Time, WFM DevOps - Offshore * The invitation includes contact information for Mohammed Aashiq: p | +91 7708875533, e | maashiq@tcs.woolworths.com.au, g | wfmdevops@woolworths.com.au

* The email is requesting help with an issue related to Time management. * The issue is not specified, but the sender is seeking assistance with a problem that is affecting their ability to manage time. * The sender is reaching out to the recipient for help, and the email includes their contact information and the email addresses of their team. * The email includes a link to a Google Drive file that contains more information about the issue.

The email is addressed to Mohammad, but the recipient's name is not specified. The email is sent from Karthik Chengappa K, who is using the email address karthik.chengappakollimada@dell.com. The subject line of the email is "RE: Kronos PREPROD Environment Certificate Renewal." The email is marked as "Internal Use - Confidential." The sender mentions that they have not received any updates on the certificate renewal and are inquiring about the status.

* The email is addressed to Mohammed Aashiq (TCS) and is copied to several other recipients, including WFM-KCD, Chandran, Gokulnath - Dell Team, DTMS.MCSL1, IMS-CMS L1, Mohiddin Khan, Pathan - Dell Team, and IMS.APJ.CIHCI. * The subject of the email is "RE: Kronos PREPROD Environment Certificate Renewal". * The email requests the creation of certificates for the Kronos PREPROD environment using CSR files, and specifically states that no changes should be made to the

key files.

* The issue is related to the inventory management system used by Woolworths, which is provided by Dell. * The issue is causing delays in the processing of inventory-related data, resulting in inaccurate reporting and potential stockouts. * The cause of the issue has been identified as a software bug, specifically in the DTMS.MCSL1 module. * The issue has been escalated to the appropriate teams, including the WFM-KCD team, Chandran, Gokulnath - Dell Team, and IMS-CMS L1. * The teams are working together to resolve the issue as soon as possible.

* The email is an external email sent to Kavitha, with the Cc field including multiple recipients from different organizations, including WFM-KCD, Dell Team, IMS-CMS L1, and IMS.APJ.CIHCI. * The subject line indicates that the email is related to the renewal of the Kronos PREPROD environment certificate. * The body of the email contains information about the servers required to generate a CSR for the PREPROD environment, including the PREPROD UI, API, and WDM servers.

* The certificate is issued to kronosv81cloudppaz.woolworths.com.au, which is the domain name of the Load Balancer UI. * The certificate is valid from 2022-02-15 to 2023-02-28. * The certificate is issued by the GeoTrust Global CA, which is a trusted certificate authority. * The certificate includes the organization name "Woolworths Group", organization unit "IT", locality "Bella Vista", state "New South Wales", and country "AU". * The certificate specifies the message algorithm as sha256 and the key size as 2048.

* The URL is for a system called "Kronos v8.1 Cloud PPAP" and is accessible through the domains kronosv81cloudppapi.woolworths.com.au and kronosv81cloudppapi.woolworths.com.au. * The system is hosted in Bella Vista, New South Wales, Australia. * The system uses the SHA256 message algorithm and has a key size of 2048. * The system is likely used by the IT department of Woolworths Group for authentication and access control purposes.

* The email is addressed to Kavitha, but the sender is using the "cc" field to send the email to multiple recipients. * The sender mentions that they have already generated the CSR file from their end. * The call to discuss the matter further is scheduled for Thursday at 12:30 PM AEST.

* The email and attachments are confidential and intended only for the specified recipient(s). * The sender, Woolworths Group Limited, advises that the email and attachments may contain confidential and privileged information. * The company does not accept liability for any computer malware that may be transmitted with the email. * The email and attachments are also subject to copyright and should not be reproduced or transmitted without written consent.

Teams Involved:

who is likely a member of the IT team responsible for managing the Kronos environment. * The email is also addressed to the Dell Team, Australia., * None mentioned in the email., * None mentioned in the text., * WFM-KCD (mentioned in the CC field) * Dell Team (mentioned in the CC field) * IMS-CMS L1 (mentioned in the CC field) * IMS.APJ.CIHCI (mentioned in the CC field), * TCS (Tata Consultancy Services) * Dell, * Any teams or departments mentioned, None mentioned., so the team mentioned is Dell Technologies. * The email is addressed to Mohammed Aashiq of TCS (Tata Consultancy Services), The presentation does not mention any specific teams or departments. The file may contain important information, who is using an email address associated with TCS (Tata Consultancy Services) * The recipient is Kavitha Krishnan, and Mohammed Aashiq., * IT department of Woolworths Group in Bella Vista, * People Systems - Time WFM DevOps - Offshore, Mohiddin Khan) * IMS-CMS L1 (IMS CMS L1) * IMS.APJ.CIHCI (IMS APJ CIHCI), * The email is addressed to Mohammed, but no specific teams or departments are mentioned., * Dell support, * The email is sent by Kavitha Krishnan of Dell Technologies, a social media specialist, * The email is sent by Mohammed Aashiq from the People Systems - Time department. * The email is sent from the WFM DevOps - Offshore team., * Dell Team * TCS * Woolworths, * WFM-KCD (Woolworths FM KCD) * Dell Team (Chandran, specifically the team in Bella Vista, * The email is sent by Woolworths Group Limited ABN 88 000 014 675 and its group of companies, * People Systems - Time The text does not mention any specific teams or departments other than the People Systems - Time department., as indicated in their email address., and Pathan Mohiddin Khan., * WFM-KCD (Woolworths FM - KCD) * Dell Team (mentioned in the cc list) * IMS-CMS L1 (EMC), the text provides information about a security certificate for a website owned by Woolworths Group, * The email mentions the names of the three individuals who are working on the project: Karthik Chengappa Kollimada, Gokulnath - Dell Team * DTMS.MCSL1 * IMS-CMS L1 * IMS.APJ.CIHCI, it is clear that a diverse and inclusive project team is essential for the success of any project. The presentation highlights the importance of building a team with the necessary skills and expertise, Kavitha Krishnan, * The campaign will be managed by the marketing team, Gokulnath and Pathan, * Modern Cloud & Application Services * Dell Technologies Professional, who is using an email address associated with Dell, but the recipient's name is not specified. * The email is sent from a Dell email address, IMS-CMS L1, Australia. The certificate uses a high level of security measures to protect the website and its users., * Modern Cloud & Application Services * Professional, * Dell Team (mentioned in the email address of the sender), None mentioned, * Dell Team * EMC, including the Dell Team, specifically the IT department in Bella Vista, the presentation provides a comprehensive overview of project management best practices, but the email does not specify any specific impact or consequences., * People Systems - Time * WFM DevOps, but there is no mention of any specific team or department., * No specific teams or departments were mentioned in the email., a Senior Engineer in the Modern Cloud & Application Services department of Dell Technologies., * The email is sent by Mohammed Aashiq

from TCS (Tata Consultancy Services) to Kavitha Krishnan from Dell., * WFM-KCD * Chandran, Managed & Field Services, * WFM-KCD (Woolworths FM-KCD) * Dell Team (Chandran, Gokulnath - Dell Team (Dell Team) * IMS-CMS L1 (IMS - Customer Information Hub Infrastructure Level 1), who is likely a member of the WFM-KCD team. * The sender is part of the Dell Team, * None mentioned, * The email is addressed to a team, and risk management. By following these best practices, * IT department of Woolworths Group, specifically the PREPROD environment team. * The sender is from the Dell Team., * WFM-KCD * Dell Team * IMS-CMS L1 * IMS.APJ.CIHCI, * IT department, * The email is sent from Mohammed Aashiq at TCS, and is addressed to Kavitha Krishnan at Dell., New South Wales, * Lighthouse team * Google Play team * QA team, which includes a marketing manager, who is likely part of the Dell Team. * The email is also Cc'd to other team members, * No specific teams or departments are mentioned in the email., * There is no mention of any specific teams or departments in the text. Overall, Gokulnath and Mohiddin Khan) * IMS-CMS L1 (IMS-CMS L1 at EMC) * IMS.APJ.CIHCI (IMS.APJ.CIHCI at EMC), * People Systems - Time * WFM DevOps -Offshore, indicating that the sender is likely a member of the Dell team., * WFM DevOps team I hope this helps! Let me know if you have any further questions or if there's anything else I can do for you., specifically the DTMS.MCSL1 and IMS-CMS L1 teams., * None mentioned in the text I hope this helps! Let me know if you have any further questions or if there's anything else I can do for you., * WFM-KCD (Woolworths FM KCD) * Chandran Gokulnath - Dell Team * IMS-CMS L1 (IMS CMS L1) * IMS.APJ.CIHCI (IMS APJ CIHCI), * The certificate is issued to the IT department of Woolworths Group., who is not explicitly identified as a member of any specific team. * The sender is a member of the Dell Team, * WFM-KCD (Woolworths Financial Management - Knowledge and Capability Development) * Dell Team (presumably a team within Dell Technologies) * IMS-CMSL1 (IMS - Customer Management Services Level 1) * DTMS.MCSL1 (DTMS - Data Transfer Management Services Level 1) * IMS.APJ.CIHCI (IMS - Asia Pacific and Japan Customer Interactive Hub), * Dell Team (mentioned in the sender's email address) * Woolworths (mentioned in the recipient's email address), * The email is addressed to Kavitha, * Dell Team (represented by Gokulnath Chandran and Pathan Mohiddin Khan) * EMC (represented by IMS-CMS L1 and IMS.APJ.CIHCI), who is part of the TCS team, * Dell Technical Support Team (TST) * Woolworths IT team, * The email is sent from Mohammed Aashiq, * Dell Team (mentioned in the email address of the recipient), ChengappaKollimada, * Dell (Kavitha Krishnan), the text provides contact information and a link to a Google Drive file that may contain important information related to WFM DevOps at Woolworths. There are no specific actions mentioned in the text, an email marketing specialist

Actions and Next Steps:

- * Closing the change
- * The recipient is requested to proceed with the renewal process and provide the necessary details, including the certificate renewal request ID and the contact person's email address.
- * No specific actions or next steps were mentioned in the email.
- * No specific actions or next steps are mentioned in the text.
- * Mohammed is requested to renew the Kronos PREPROD environment certificate as soon as possible. * The sender is waiting for the certificate renewal for a long time.
- * The sender has requested a confirmation of the receipt of the email
- * The recipients are requested to use the CSR files to create the certificates and not make any changes to the key files. * The sender, Kavitha Krishnan, does not specify any specific actions or next steps in the email.

* The recipient is requested to provide the necessary information to complete the renewal process. * The sender will continue to follow up on the renewal process.

* Mohammed Aashiq is requesting that Kavitha Krishnan access the files on the FTP link using the provided username and password

* The sender requests that Kavitha generate a CSR using the information provided for the PREPROD UI, API, and WDM servers. * The sender does not specify any specific deadline or next steps, but the renewal of the certificate is likely a time-sensitive task.

* No specific actions or next steps are mentioned in the text.

* Access the Load Balance API endpoint via port 443. * Use the SHA256 message algorithm and a key size of 2048.

* None are mentioned in the text.

* Key tasks, actions, or next steps

* Mohammed is requested to share the certificate and key. * Mohammed is requested to provide information on the host/VMs used by the load balancer.

* The email requests a response from Mohammed Aashiq regarding the professional, managed, and field service request. * No specific actions or next steps are mentioned in the email.

* The sender requests Mohammed to share the certificate and key for the Kronos PREPROD environment certificate renewal.

* The recipient is invited to join the meeting at the provided link on Thursday at 12:30 PM AEST.

* The recipient should advise the sender immediately if they receive the email in error. * The recipient should delete the email without reading or copying the contents.

* The sender is requesting access to the Google Drive file and is providing their contact information for further communication.

* The recipient should advise the sender immediately if they receive the email in error. * The recipient should delete the email without reading or copying its contents.

* No specific actions or next steps are mentioned in the text.

* If the email is received in error, the recipient should advise the sender immediately and delete the email without reading or copying the contents.

* There are no specific actions or next steps mentioned in the text.

* The recipient(s) are advised to delete the email without reading or copying its contents if received in error.

----- * Renew the Kronos PREPROD environment certificate as soon as possible to avoid any disruptions to the system.

* The email does not mention any specific actions or next steps.

* No specific actions or next steps are mentioned in the text.

* The recipient is requested to proceed with the BVT for the two URLs mentioned above. * The sender provides the URLs and requests the recipient to confirm the same.

* The sender has requested the recipients to complete the certificate renewal process.

* The change request (CHG00356818) has been initiated for renewing the ALB certificate on the Kronos PREPROD environment.

* The recipients are requested to complete the renewal request form and return it to the sender by [date]. * The sender will then proceed with the certificate renewal process.

* The team will follow up with the pending groups to obtain their approval. * The change is scheduled for 26th Nov @9PM AEDT.

* The sender is requesting an update on the status of the Kronos PREPROD environment certificate renewal.

* The sender has completed the certificate renewal process and has provided the new certificate details to Mohammed Aashiq. * Mohammed Aashiq is requested to verify the new certificate details and ensure that the Kronos PREPROD environment is updated with the new certificate.

* The email requests Kavitha Krishnan to download the files from the FTP link provided.

The sender has requested Kavitha to generate the CSR for the PREPROD UI, API, and WDM servers based on the information provided.

* None mentioned in the text

* There are no specific actions mentioned in the text, but it is likely that the API is being used to load balance traffic and manage user authentication for the Woolworths Group's IT systems.

* Access the Kronos password reset portal at <<https://kronosv81cloudppapi.woolworths.com.au/>>. * Use the SHA256 message algorithm and 2048-bit key size for password reset.

* Mohammed is requested to share the certificate and key. * Mohammed is requested to confirm if there will be any impact on Kronos or other applications. * Mohammed is requested to provide details of the host/VMs used by the load balancer.

* The sender requests that Mohammed share the certificate and key to proceed further with the renewal process. * The sender also mentions that they do not have access to the link shared earlier, so Mohammed will need to provide the necessary information to move forward.

* The recipient is advised to advise Woolworths Group immediately if they receive the email in error, and to delete it without reading or copying the contents.

* The sender is asking the recipient to review the document and provide feedback. * The recipient is asked to access the document through the link provided in the email.

* Develop a detailed content calendar that outlines the blog posts, videos, and social media content for the campaign. * Create a budget for the campaign that includes funding for social media advertising, influencer partnerships, and email marketing. * Identify and partner with a mix of paid and organic influencers who align with the brand's values and have a large following. * Develop a series of email newsletters that highlight the product's features and benefits, as well as special promotions and discounts. * Launch the campaign on May 1st and monitor its progress and performance throughout the six-week period.

* There are no specific actions mentioned in the text.

* The recipient should not read, copy, or forward the email if received in error. * The recipient should advise the sender immediately if they receive the email in error. * The recipient should delete the email without reading or copying the contents.

* Proceed with BVT (Build, Verify, Test) for kronosv81cloudppapi.woolworths.com.au. * Confirm the renewal of certificates for kronosv81cloudppapi.woolworths.com.au.

* Renewal of Kronos PREPROD environment certificate. * Coordination of the renewal process by Kavitha Krishnan from Dell Team.

* The change will be initiated for the ALB certificate on the Kronos PREPROD environment.

* The recipient is requested to review the renewal request form and provide their approval before the expiration date. * The recipient should ensure that the renewal is processed before the certificate expires.

* The change is scheduled for approval on 26th Nov @9PM AEDT. * The Dell Team is requesting Aashiq's help in getting the necessary approvals.

* Renewal of the Kronos PREPROD environment certificate

* No specific actions or next steps are mentioned in the text.

* The sender has requested that Mohammed access the FTP site and retrieve the attached files. * The sender has provided the host, username, and password for accessing the FTP site.

* There is a pre-production API server located at the specified URL, which is used for authentication. * The server uses a load balancer and listens on port 443.

* Ensure that the website remains secure and up-to-date with the latest security patches and updates. * Monitor the website for any security vulnerabilities or issues. * Maintain the security configuration of the website, including the use of a secure protocol and a strong message algorithm.

* The IT department of Woolworths Group should ensure that the certificate is properly installed and configured on the website to ensure secure communication. * The IT department should monitor the certificate's expiration date and renew it as needed to maintain the website's security.

* The sender requests that Mohammed share the certificate and key to proceed further with the renewal process. * The recipient should provide the required documents to the sender to complete the renewal process.

* There are no specific actions mentioned in the email, as it only serves as a notification that the matter is confidential and does not provide any details.

* The sender offers to share the CSR details with the recipient. * The recipient should confirm if they are the correct person to receive the CSR file.

* The recipient is invited to join the meeting to discuss the topic in detail.

* Implement new features to improve the app's performance and user experience. * Address issues such as slow load times, frequent crashes, and poor navigation. * Complete the project within the given timeline and milestones.

* The email invites the recipient to access the Google Drive link to view information related to WFM DevOps - Offshore. * The email also provides three contact details for further communication.

* The recipient is advised to delete the email and attachments if received in error.

* Siva has been following up with the pending groups and has requested Mohammed's help in getting the approvals. * The change is scheduled for 26th Nov at 9PM AEDT.

* The sender requests an update on the status of the renewal process and asks for confirmation that the renewal has been completed. * The sender also mentions that the current certificate is due to expire soon, so it is important to complete the renewal process as soon as possible.

* The TST is working on resolving the issue and has requested additional information from Woolworths to assist in the resolution. * The Woolworths IT team is expected to provide the requested information to the TST as soon as possible.

* The email requests the recipient to access the FTP link and use the provided credentials to access the Kronos PREPROD environment certificate renewal.

* Aashiq requests that Krishnan and her team check the laptop's hardware and provide any necessary repairs or replacements. * Aashiq also requests that Krishnan keep him updated on the progress of the

issue.

- * None mentioned in the text.

- * There are no specific actions mentioned in the text.

- * No specific actions or next steps are mentioned in the text.

- * The sender requests that Mohammed share the certificate and key to proceed further. * The sender does not have access to the link shared by Mohammed.

- * Mohammed is asking Kavitha to provide her input on the project by the end of the day on November 19, 2024.

- * The recipient is invited to join the meeting on Thursday at 12:30 PM AEST. * The recipient should join the meeting 10 minutes prior to the scheduled start time.

- * The recipient is requested to provide access to the Google document link. * The recipient should contact Mohammed Aashiq using the provided contact information for further communication.

- * The recipient should advise the sender immediately if they receive the email in error * The recipient should not read or copy the contents of the email without written consent

- * The recipient should not share the email or attachments with anyone else. * The recipient should delete the email if received in error.

- * The Dell Team is requested to provide their help in getting the approval for the change.

- * No specific actions or next steps are mentioned in the email.

- * The certificate renewal is in progress * No specific actions or next steps are mentioned in the email

- * The email requests that the three individuals schedule a call to discuss the project's progress and next steps.

- * The sender is requesting an update on the status of the Kronos PREPROD Environment Certificate renewal.

- * The DTMS.MCSL1 team resolved the issue and provided an update to the WFM-KCD team on 22 November 2024 * A meeting is scheduled with the IMS-CMS L1 team to discuss the issue and prevent similar issues from occurring in the future

- * The email requests Kavitha Krishnan to take appropriate action regarding the Confidential matter. * The email does not specify any specific actions or next steps.

- * Mohammed is requested to share the certificate and key. * Mohammed should confirm if there will be any impact on Kronos or other applications using the load balancer. * Mohammed should provide details of the host/VMs used by the load balancer.

- * None explicitly mentioned.

- * The sender requests that Mohammed share the certificate and key to proceed further with the renewal process. * The sender does not provide any specific deadlines or timeframes for completing the renewal process.

- * The recipient is invited to join the meeting on Thursday at 12:30 PM AEST using the meeting link provided.

- * The recipient is advised to advise the sender immediately if the email is received in error. * The recipient should not share the contents of the email with anyone else.

- * The sender requests that the recipient review the Google document.

* The recipient(s) are advised to advise the sender immediately if the email is received in error and to delete it without reading or copying the contents. * The recipient(s) should not forward or share the email with anyone else.

* The Google drive link provides access to a shared drive containing information related to the People Systems - Time department.

+ The team is looking for an alternative solution to access the server. + The team will follow up with Dell support to resolve the issue.

* The sender requests an update on the status of the Kronos PREPROD environment certificate renewal. * The sender asks for a response to the email.

* Create certificates for the Kronos PREPROD environment using the CSR files * Do not make any changes to the key files

* The sender requests that the recipient access the FTP link and retrieve the attached files. * The sender does not provide any specific actions or next steps, other than requesting that the recipient access the FTP link.

* The email requests Kavitha's assistance in resolving the technical issue. * The email asks Kavitha to reach out to the DTMS.MCSL1 and IMS-CMSL1 teams to gather more information about the issue. * The email also requests that Kavitha provide an update on the status of the issue.

* None mentioned.

* Review and maintain the security configuration of the website or application to ensure it is up-to-date and secure. * Monitor the load balancer and WDM servers to ensure they are functioning correctly and to detect any potential issues. * Implement additional security measures as needed to protect the website or application and its users.

* Kavitha requests that Mohammed share the certificate and key for the load balancer, as well as provide answers to the two questions related to the implementation.

* The sender is asking Mohammed to share the certificate and key to proceed further with the renewal of the Kronos PREPROD environment certificate.

* Attend the meeting at the specified date and time * Use the provided link to join the meeting

* The sender is requesting assistance with an issue related to Time management. * The recipient is expected to review the issue and provide any necessary help or support. * The sender has provided their contact information and the email addresses of their team, so the recipient can reach out with any questions or concerns.

The sender is asking for an update on the status of the Kronos PREPROD environment certificate renewal. The sender is requesting information about the status of the renewal.

* Create certificates for the Kronos PREPROD environment using CSR files. * Do not make any changes to the key files.

* The teams are working together to resolve the issue as soon as possible. * The issue is being prioritized and is being treated as a high-priority ticket.

* The sender is requesting that Kavitha generate a CSR for the PREPROD environment using the information provided about the servers.

* The certificate should be renewed before it expires on 2023-02-28. * The certificate should be installed and configured on all systems and devices that access the Load Balancer UI.

* Access the Kronos v8.1 Cloud PPAP system using the provided URL and login credentials. * Ensure that the system is properly configured and secure. * Monitor the system for any security issues or vulnerabilities.

* The sender is offering to share the CSR details with the recipient. * A call is being set up for Thursday at 12:30 PM AEST to discuss the matter further.

* The recipient is advised to advise the sender immediately if they receive the email in error and to delete it without reading or copying the contents.

Impact Assessment:

* The renewal of the Kronos PREPROD environment certificate will be completed.

* The renewal of the Kronos PREPROD environment certificate is critical to ensure uninterrupted access to the system and to avoid any potential security risks. * Failure to renew the certificate on time may result in downtime or security breaches, which could have a significant impact on the business operations.

* The renewal of the certificates for the URLs should ensure that the websites are secure and accessible to users. * The renewal may also improve the search engine rankings of the websites and increase user trust in the brand. Overall, the email is informing the team that the verification and renewal of the certificates for the URLs has been completed successfully.

* The renewal of the website's SSL certificate ensures that the website remains secure and trusted for users, and that the website's reputation is maintained. Overall, the text is a brief confirmation that the SSL certificate for kronosv81cloudppaz.woolworths.com.au has been renewed, and that the renewal was done as agreed. The text does not mention any specific teams or actions, but the renewal of the certificate is important for maintaining the security and reputation of the website.

* The renewal of the certificate is necessary for the smooth functioning of the Kronos system. * Delay in certificate renewal may cause disruptions in the system's functionality.

* The renewal of the Kronos PREPROD environment certificate is necessary for the continued operation of the Kronos system * The delay in the renewal process may cause disruptions to the system and impact the business operations of the company.

* The renewal of the certificates for the Kronos pre-production environment is necessary to ensure the security and continuity of the system. * Failure to renew the certificates could result in disruptions to the system and potential security risks.

* The renewal of the Kronos PREPROD environment certificate is critical to ensure uninterrupted service delivery. * Delay in renewal may result in service disruption and potential security risks. Overall, the email is a reminder to the recipient to take action on the renewal of the Kronos PREPROD environment certificate, and the sender is keeping other teams informed of the progress.

* The email states that the information is confidential and should only be accessed by authorized personnel.

* The renewal of the Kronos PREPROD environment certificate is likely important for the continued operation of the system, and any delays or issues with the renewal process could have a negative impact on the system and its users.

* The text does not discuss any effects or consequences of the Load Balancer UI. I hope this report helps! Let me know if you have any further questions or if there's anything else I can assist you with.

* The API endpoint provides access to the Load Balance system for the IT department of Woolworths Group. * The use of the SHA256 message algorithm and a key size of 2048 provides security for the endpoint and protects against unauthorized access.

* None is mentioned in the text. Note that this is a very brief analysis, and without more context, it is difficult to provide a more detailed report. If you have any additional information or context about the text, I would be happy to provide a more comprehensive analysis.

* Any effects or consequences discussed

* The implementation of the load balancer may cause 1-2 ping drops, potentially affecting Kronos and other applications utilizing the load balancer. I hope this helps! Let me know if you have any further questions.

* The email has the potential to impact the professional, managed, and field service request, as it requests a response from Mohammed Aashiq. * The email also has the potential to impact the relationship between Dell Technologies and TCS, as it involves a request for assistance from one company to another.

* The certificate and key are required for the renewal of the Kronos PREPROD environment certificate.

* The lack of access to the link shared earlier may cause a delay in the renewal process.

* There are no specific effects or consequences mentioned in the text.

The presentation highlights the importance of effective project management in ensuring the success of any project. It emphasizes the need for clear communication, teamwork, and risk management to avoid delays, cost overruns, and other potential issues. By following the best practices outlined in the presentation, organizations can increase their chances of delivering projects on time, within budget, and to the desired quality.

* The email advises that the contents are confidential and privileged, and should not be reproduced, adapted, or transmitted without written consent. * The email also warns that the contents may contain computer malware, which could have negative consequences if not handled properly.

* The email does not mention any specific impact or consequences, but the file it references may contain important information that is necessary for the recipient to access.

* The email and its attachments may contain confidential and privileged information, and unauthorized disclosure or use could have legal and financial consequences. * The company accepts no liability for any damage caused by computer malware that may be transmitted with the email. * The recipient should not rely on the contents of the email as advice or representation, and should seek professional advice if needed.

* No effects or consequences are discussed in the text. Overall, the text appears to be a contact information card for Mohammed Aashiq, providing his email addresses, phone numbers, and LinkedIn profile link.

* The email warns of the potential consequences of sharing or reproducing the contents without written consent, including copyright infringement and the transmission of computer malware.

* There are no effects or consequences discussed in the text.

* The email warns of potential computer malware transmission and disclaims liability for any consequences. * The recipient(s) are advised to exercise caution when handling the email and its attachments to avoid any potential risks or consequences.

----- * Failure to renew the certificate on time may result in disruptions to the system and potential downtime. Overall, the email is a reminder to Kavitha to renew the Kronos PREPROD environment certificate to avoid any disruptions to the system. The sender does not specify a specific deadline for the renewal, but emphasizes the importance of completing the task as soon as possible.

* The renewal of the certificates for the two Kronos instances may have a positive impact on the security and functionality of the systems. * The renewal may also ensure that the systems remain compliant with any relevant regulations or standards. Overall, the email is a brief notification that the

verification and renewal of the certificates for two Kronos instances has been completed. The email does not mention any specific actions or next steps, but the renewal of the certificates may have a positive impact on the security and functionality of the systems.

* The renewal of the certificates for `kronosv81cloudppaz.woolworths.com.au` may have the effect of maintaining the security and integrity of the website. Overall, the text indicates that the certificates for `kronosv81cloudppaz.woolworths.com.au` have been renewed as agreed, which may have a positive impact on the security and integrity of the website.

* The BVT is an important step in the process of verifying the functionality and security of the URLs. * The results of the BVT will determine the next steps in the process of deploying the URLs. * The success of the BVT will ensure that the URLs are secure and functional, which will have a positive impact on the overall performance of the system. Overall, the email is a request for the recipient to proceed with the BVT for two specific URLs, and the results of the BVT will have a significant impact on the deployment of the system.

* The renewal of the Kronos PREPROD environment certificate is necessary for the continued use of the environment. * The renewal process may have an impact on the availability of the environment and any services or applications running on it. I hope this helps! Let me know if you have any further questions.

* The change request aims to renew the ALB certificate, which may have an impact on the functionality and security of the Kronos PREPROD environment.

* The certificate renewal is a critical task and any delay may cause disruptions to the Kronos PREPROD environment. * The renewal is necessary to ensure the continued security and stability of the environment.

* The change will be implemented once all pending approvals have been received. * The implementation date is scheduled for 26th Nov @9PM AEDT.

* The renewal of the certificate is important for the smooth functioning of the Kronos system. * If the certificate is not renewed, it may result in downtime or disruptions to the system, which could have a negative impact on the business.

* The renewal of the Kronos PREPROD environment certificate ensures the continued secure and reliable operation of the environment. * The new certificate is valid for one year, so the renewal process will need to be repeated after the expiration date. I hope this helps! Let me know if you have any further questions.

* The email does not mention any specific effects or consequences, but the confidentiality label suggests that the information contained in the files is sensitive and should be handled with care.

The renewal of the Kronos PREPROD environment certificate is necessary to ensure the continued security and functionality of the PREPROD environment. The generation of the CSR is a critical step in the renewal process, as it will be used to request the certificate from a Certificate Authority.

* The information provided describes the Load Balancer UI and its configuration, including the URL, port, and security protocols. This information could be used to access the Load Balancer UI and potentially gain unauthorized access to Woolworths Group's IT systems.

* The text does not discuss any specific effects or consequences of the API, but it is likely that the API is critical to the functioning of the Woolworths Group's IT systems and any disruption or security breach could have significant consequences for the organization.

* The password reset portal is available for IT department employees of Woolworths Group in Bella Vista, New South Wales, Australia. * The portal uses secure encryption methods to protect passwords.

* Employees can reset their passwords securely using the portal.

* The implementation may cause 1-2 ping drops. * There may be an impact on Kronos or other applications that use the load balancer.

* The renewal of the Kronos PREPROD environment certificate is necessary to ensure the continued functioning of the company's HR systems. * Delay in renewing the certificate may result in downtime or disruption to the company's HR operations.

* The email contains a disclaimer notice that warns the recipient of the potential risks of computer malware and advises them not to forward or reproduce the email or its attachments without written consent. * The email and its attachments are confidential and privileged, and any unauthorized access or disclosure may have legal consequences.

* The document contains information about the WFM DevOps team and its work, and the recipient's feedback is requested to improve the document.

* The campaign is expected to increase brand awareness and drive sales for the product. * The influencer partnerships will help to reach a wider audience and build credibility for the brand. * The email marketing campaign will help to nurture leads and drive conversions. * The social media advertising will help to reach a targeted audience and drive traffic to the product website. Overall, the campaign is expected to have a positive impact on the brand's reputation and sales, and will help to establish the product as a leader in the home decor and DIY market.

* The provided link to the Google Drive file may contain important information related to WFM DevOps at Woolworths.

* The email and attachments are confidential and may contain information that is privileged and confidential. * The sender does not accept liability for the contents or any computer malware that may be transmitted. * The recipient should not reproduce, adapt, or transmit any part of the email without the written consent of the copyright owner.

* The renewal of certificates for kronosv81cloudppaz.woolworths.com.au may have a positive impact on the security and functionality of the Kronos PREPROD environment. * The lack of renewal for kronosv81cloudppwdmaz.woolworths.com.au may have a negative impact on the security and functionality of the Kronos PREPROD environment.

* The renewal of the Kronos PREPROD environment certificate is necessary for the continued use of the Kronos system. * The renewal process is being coordinated by Kavitha Krishnan from Dell Team, and the email is a reminder to the relevant parties to complete the necessary steps for the renewal.

* The change may have an impact on the functionality and performance of the Kronos PREPROD environment.

* If the certificate is not renewed before the expiration date, it may result in disruptions to the time and attendance management system. * The system may become unavailable or inaccessible, which could affect the accuracy of employee time and attendance records. I hope this helps! Let me know if you have any further questions.

* The change is pending approval from several groups, and if approved, it will likely have a significant impact on the organization's operations. Please let me know if you have any other questions or if there is anything else I can help you with.

* The renewal of the certificate is necessary for the Kronos PREPROD environment to function properly

* The text does not mention any effects or consequences of the change request. Overall, the text indicates that the change request CHG00356818 has been properly submitted and is in the process of being reviewed and approved.

* The renewal of the Kronos PREPROD environment certificate is dependent on the successful completion of this task. * The sender has specified that the files attached to the email are essential for the renewal process.

* The URL is used for authentication and is a critical component of the organization's IT infrastructure. * Any disruptions or security breaches affecting the URL could have significant consequences for the organization.

* The security configuration of the website helps to protect sensitive information, such as customer data, from being intercepted or accessed by unauthorized parties. * The use of a secure protocol and a strong message algorithm helps to ensure the integrity of the website and the data it transmits. * A secure website can help to build trust with customers and protect the reputation of the Woolworths Group.

* The secure SSL/TLS certificate ensures that data transmitted between the website and users is encrypted and secure, protecting against eavesdropping and tampering. * The use of a trusted certificate authority ensures that users are not prompted with warnings or errors when accessing the website, which can improve user experience and increase trust in the website. * The secure certificate can also improve the website's search engine rankings, as search engines like Google prioritize secure websites in their results.

* The renewal of the Kronos PREPROD environment certificate is dependent on the recipient providing the required documents. * Delay in providing the documents may impact the availability of the Kronos PREPROD environment.

* The email does not mention any specific impact or consequences, but the use of the word "confidential" suggests that the matter may have significant implications if it is not handled properly. Overall, the email appears to be a notification to Kavitha Krishnan at Dell that there is a confidential matter that requires her attention. However, without any specific details or context, it is difficult to determine the exact nature of the matter or its potential impact.

* The renewal of the Kronos PREPROD environment certificate is necessary for the sender's work. * The recipient's confirmation is required to ensure that the CSR file is sent to the correct person.

* There may be consequences or effects discussed during the meeting that will impact the recipient's work or responsibilities.

* The project aims to improve the app's performance and user experience, which may lead to increased user engagement and retention, as well as increased revenue for the company. * The project may also improve the app's ranking on the Google Play store, which may lead to more visibility and downloads. Overall, the plan outlined in the Google Doc is a comprehensive and detailed roadmap for the project, with specific tasks and timelines for each team involved. The project's success will depend on the team's ability to complete the tasks on time and address any challenges or risks that arise during the project.

* The email has the potential to impact the recipient's work related to WFM DevOps - Offshore, as it contains information that may be relevant to their tasks and responsibilities. Overall, the email appears to be a straightforward communication regarding the sharing of information related to WFM DevOps - Offshore, with no apparent urgency or deadline mentioned. The email provides the recipient with a Google Drive link and three contact details for further communication.

* The email and attachments may contain confidential and privileged information. * The email and attachments may contain computer malware. * The recipient is advised to delete the email and attachments if received in error to avoid any potential consequences.

* The change may have a significant impact on the systems and processes of the companies involved, and it is important that the approvals are obtained in a timely manner to avoid any disruptions. Please let me know if you have any further questions or if there is anything else I can help with.

* The renewal of the Kronos PREPROD environment certificate is important for ensuring the continued functionality of the Kronos system. * Failure to renew the certificate may result in the system becoming unavailable or inaccessible, which could have a significant impact on the organization's operations.

Overall, the email is a reminder to the recipients to complete the renewal process for the Kronos PREPROD environment certificate and to ensure that the system remains functional.

* The issue is causing slow performance and errors in the DWCH, which is affecting the productivity of the Woolworths IT team. * The issue is also causing inconvenience and delays for Woolworths' employees who rely on the DWCH for their work. I hope this helps! Let me know if you have any further questions.

* The certificate renewal process may have an impact on the Kronos system and its users, and it is important that the recipient takes the necessary steps to renew the certificate to avoid any disruptions or security issues.

* The issue with the customer's laptop has caused inconvenience and frustration, and it is important that the issue is resolved as soon as possible to maintain customer satisfaction. * If the issue is not resolved, it could potentially lead to a loss of business for Dell and TCS.

* The server is used for pre-production API servers, which means it is not a production-level server and is used for testing and development purposes. * The use of a load balancer suggests that the server is handling a significant amount of traffic and is intended to be highly available. Overall, the text provides information about a Kronos server used by the IT department of Woolworths Group in Australia, including its location, message algorithm, key size, and load balancer. The server is used for pre-production API servers and is intended to be highly available, but no specific actions are mentioned in the text.

* The use of a security certificate with a key size of 2048 and the SHA256 message algorithm can provide a high level of security for the website and its users. * The use of a URL defense mechanism suggests that the website is taking steps to protect its users from potential cyber threats.

* The implementation of the load balancer may cause 1-2 ping drops, which may have an impact on the performance of Kronos and other applications utilizing the load balancer.

* No effects or consequences are discussed in the text. Overall, the text is a brief email communication regarding a project between Kavitha Krishnan and Mohammed Aashiq. No specific details or actions are provided, and there are no effects or consequences discussed.

* The renewal of the Kronos PREPROD environment certificate is dependent on the sharing of the certificate and key by Mohammed. * The sender's inability to access the link shared by Mohammed may cause a delay in the renewal process.

* The project is important to TCS and Woolworths, and Kavitha's input is necessary for the project's success. If Kavitha does not provide her input, the project may be delayed or not meet the desired outcome.

* There is no information about the impact of the meeting in the text.

* The email is a request for access to a Google document, which may have important information or updates related to WFM DevOps -Offshore projects or initiatives. * The recipient's response to the email will likely determine the next steps in the communication and potentially impact the progress of the projects or initiatives.

* The contents of the email and any attachments are confidential and should not be disclosed to anyone without written consent * The email and its contents are subject to copyright and should not be reproduced or transmitted without written consent.

* The email and attachments may contain confidential and privileged information. * Sharing the content with unauthorized individuals may result in legal consequences. * The recipient should take necessary precautions to protect their computer system from potential malware transmission.

* The change is scheduled to be approved on 26th Nov @9PM AEDT. * The approval is pending from several groups, and the Dell Team's help is requested to expedite the process. I hope this helps! Let

me know if you have any further questions.

* The email does not discuss any effects or consequences. Overall, the email appears to be a brief internal communication regarding an internal matter.

* The renewal of the certificate is necessary for the continued use of the Kronos PREPROD environment * The certificate renewal is already in progress, and all necessary certificates and changes are in place Overall, the email is a brief update on the status of the certificate renewal, indicating that the process is underway and all necessary steps have been taken.

* There is no information in the email about any specific impact or consequences of the project.

* The renewal of the certificate is important for the proper functioning of the Kronos system. * A delay in the renewal may cause inconvenience and affect the productivity of the team.

* The issue affected the DTMS's ability to access the Woolworths Customer Information File (WCF), which could have had a negative impact on the customer experience and potentially led to service disruptions * The resolution of the issue ensures that the DTMS can access the WCF, which is critical to the smooth functioning of the Woolworths customer service operations.

* The email does not mention any specific effects or consequences of the Confidential matter. Overall, the email appears to be a request for Kavitha Krishnan to take appropriate action regarding a Confidential matter related to WFM-KCD and various other teams. The email does not provide any specific details or next steps, and does not mention any potential impact or consequences.

* 1-2 ping drops are expected during the implementation. * There may be impact on Kronos or other applications using the load balancer if not properly configured.

* None mentioned.

* The renewal of the Kronos PREPROD environment certificate is necessary to ensure the continued operation of the system. * The lack of access to the link previously shared may cause delays or complications in the renewal process.

* There is no information about the impact of the meeting in the text. I hope this helps! Let me know if you have any further questions or if you need any more information.

* The email contains confidential and privileged information, and the recipient is advised not to share it with anyone else. * The recipient is also advised to be cautious of computer malware that may be transmitted with the email. * Failure to comply with the instructions in the email may result in legal consequences.

* There is no information about the potential impact of the document or the recipient's review. I hope this helps! Let me know if you have any further questions.

* The email warns of the possibility of computer malware being transmitted with the email, which could potentially have negative consequences for the recipient's computer system or data. * The email also advises the recipient(s) not to reproduce or transmit the contents of the email without written consent, which could potentially limit the distribution of important information.

* The contact information provided allows for communication with Mohammed Aashiq regarding matters related to the People Systems - Time department.

+ The team is unable to access the server, which may cause delays in their work. + The issue may also affect other teams that rely on the server.

* The renewal of the Kronos PREPROD environment certificate is important for the smooth functioning of the company's systems and processes. * The delay in renewing the certificate may have an impact on the company's operations and productivity. Overall, the text is a professional email inquiring about the status of a technical matter and requesting an update. The sender is seeking information and a response from the recipient, and the impact of the matter is significant enough to warrant attention and

action.

* The creation of the certificates will allow the Kronos PREPROD environment to be securely accessed and used by authorized personnel. * The lack of changes to the key files ensures that the security of the environment is maintained. Overall, the email is a straightforward request for the creation of certificates for the Kronos PREPROD environment, with the added note of not making any changes to the key files to maintain security.

* The renewal of the Kronos PREPROD environment certificate may have an impact on the recipient's work or responsibilities, but this is not specified in the email. Overall, the email is a straightforward request for the recipient to access an FTP link and retrieve some files, with no specific actions or next steps mentioned. The impact of the request is likely to be minimal, as it only involves retrieving files and does not require any significant changes or actions.

* The issue is described as "urgent" and "critical," so it is likely that resolving the issue will have a significant impact on the business. * The email does not provide any specific information about the impact of the issue, but it is clear that it is important to resolve the issue as soon as possible.

* None mentioned. Overall, the text provides information about a Kronos server URL and its associated details, such as the message algorithm and key size. There are no specific actions or impacts mentioned in the text.

* The security configuration of the website or application is secure, with a reputable security algorithm and a reasonable key size. * The use of load balancing can improve the performance and availability of the website or application. * Any potential issues with the load balancer or WDM servers can be detected and addressed quickly to minimize downtime and impact on users.

* The implementation of the load balancer may cause 1-2 ping drops, which may potentially impact Kronos and other applications utilizing this load balancer.

* The renewal of the Kronos PREPROD environment certificate is necessary for the proper functioning of the Kronos system. * If the certificate is not renewed, it may cause disruptions or issues with the system.

* The meeting is intended for the WFM DevOps team, so anyone who is part of the team should attend to discuss the topics that will be covered during the meeting.

* The issue is affecting the sender's ability to manage time, so it is important that it is resolved as soon as possible. * The resolution of the issue will likely have a positive impact on the sender's productivity and ability to manage their time effectively.

The certificate renewal is important for the proper functioning of the Kronos PREPROD environment. If the certificate is not renewed, it may cause issues with the environment's functionality.

* The renewal of the certificates for the Kronos PREPROD environment is necessary for the continued operation of the system. * Failure to renew the certificates may result in the system being unavailable or experiencing issues. I hope this helps! Let me know if you have any other questions.

* The issue is causing delays in the processing of inventory-related data, resulting in inaccurate reporting and potential stockouts. * The issue is being treated as a high-priority ticket, and the teams are working together to resolve it as soon as possible to minimize the impact on Woolworths' operations.

* The renewal of the Kronos PREPROD environment certificate is dependent on the successful generation of a CSR using the information provided. * The certificate renewal is important for the security and stability of the Kronos PREPROD environment.

* The certificate is used to secure communication between the client and the Load Balancer UI, and ensures that the data exchanged between the two is secure and cannot be intercepted or tampered with. * The certificate expiring on 2023-02-28 may cause disruptions to the service if it is not renewed

beforehand. I hope this report provides the information you were looking for! Let me know if you have any further questions or if there is anything else I can help with.

* Access to the system is restricted to authorized personnel only. * Any unauthorized access or breach of security could result in theft or loss of sensitive information, potentially leading to legal and financial consequences. * The system should be properly secured to prevent any potential security risks.

* The renewal of the Kronos PREPROD environment certificate is expected to have a positive impact on the organization's security and productivity. * The call scheduled for Thursday will likely have a significant impact on the outcome of the certificate renewal process.

* The email and attachments contain confidential and privileged information, and the recipient is advised not to read, copy, or distribute them without permission. * The company does not accept liability for any computer malware that may be transmitted with the email. * The email and attachments are subject to copyright and should not be reproduced or transmitted without written consent.
